

We promote the action and knowledge of civic innovators and organizations to transform Latin America.

Technology, civic innovation and a transformative ecosystem meet with a common goal: **greater and more scalable impact.**

We are Civic House and we welcome you to our home

What we believe in: transformative ecosystems

What we do

- 1

We offer a financial, legal and strategic structure, ready to operate.
- 2

We accompany partners to strengthen their strategies and their allies' strategies through organizational development and support.
- 3

We investigate innovative uses and challenges of technology and we identify the most pressing challenges of civil society.
- 4

We identify pressing challenges of Civil Society ecosystems and we co-design programmes and projects.

1 Operational framework: the back office

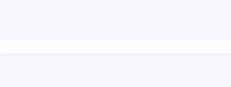

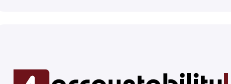

Our set of facilities and team ready to manage accounting, legal, financial and administrative operations of social organizations in Argentina, Colombia, Mexico and Uruguay

- +45 benefits and services including use of coworking spaces
- Technological tools
- Memberships in civil society networks
- Networking in a community of +200 professionals in the sector

2 Organizational development and Support

Our civic community

 ODC open data charter	Governments and organizations opening data to citizens together.
 KUBADILI	Agile methodologies to amplify the impact of organizations and Government.
 accionar.io	Digital and citizen activism campaigns accelerator.
 change.org	The largest citizen petition platform in the world.
 wingu	Digital tools and solutions for social transformation.
 accountabilityjob	Translocal global network of transparency and efficiency in governments supporting citizens and institutions.

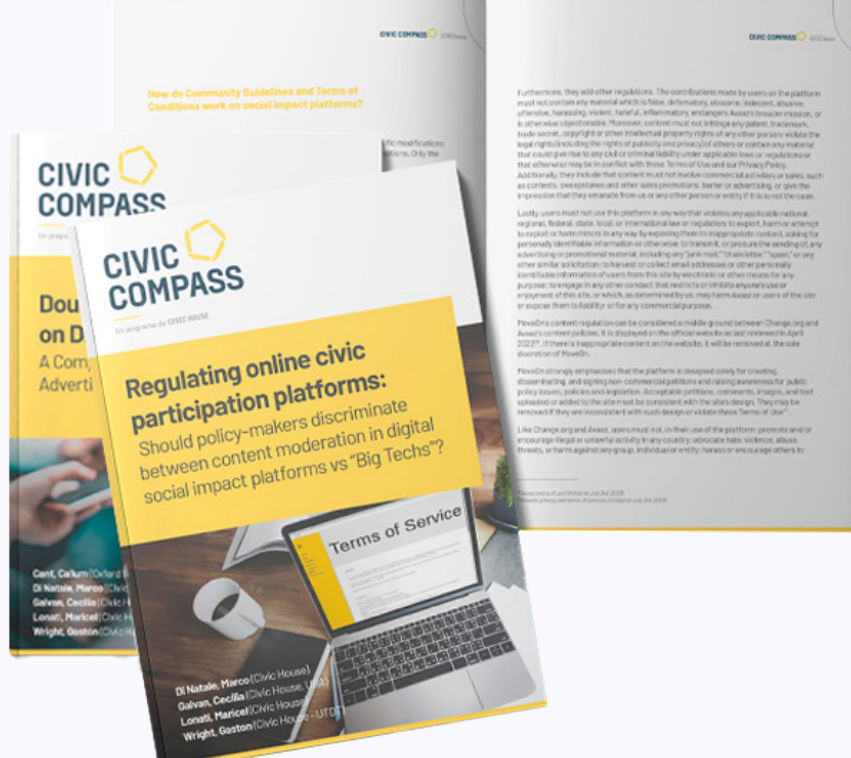

- Sustainability: financial resilience
- Technology and digital strategies and culture
- Organizational support
- Leadership
- Advocacy
- Innovation

 donaronline	Individual donor platform for more than 10K social organizations.
 Ada	Training school for women programmers aiming to reduce the gender gap.
 TRANSITI	Software testing and assistant services to promote the labor inclusion of trans people.
 FONSELP	Universities, organizations and companies connected to offer or request social impact products.
 equiestoy	Free emotional support network via instant messaging apps.
 fibo	Solutions focused on regeneration, respect and care for socio-biodiversity.

3 Research and policy unit

CIVIC COMPASS

A CIVIC HOUSE unit

We do research and we engage in discovering the impact of technology and other themes that affect the civic space in our region.

digital platforms | electoral digital advertising regulations | data protection laws | open data | civil society

4 Our programmes and projects

CIVIC FUND

A CIVIC HOUSE unit

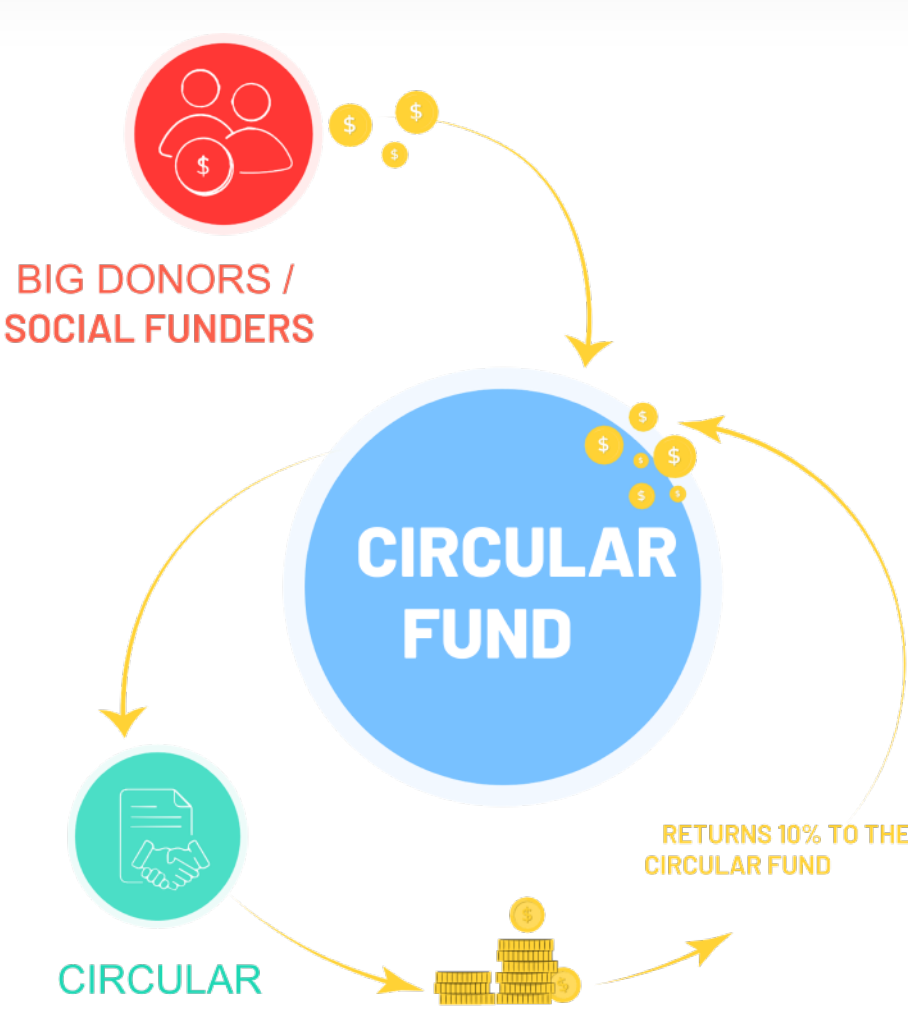

We developed our first Fund to promote transformative ideas

The selected projects are part of an experimental framework with tactical, technical and strategic support from our house accompanied by seed capital.

- We seek to encourage the development of new civic innovation projects both within our community and outside it.
- We want to recruit teams with high-impact and long-term sustainable proposals.
- We promote civic technology initiatives to strengthen the regional ecosystem.

CIVIC CIRCULAR INVESTMENT FUND

We created the Circular Investment Fund to promote business ideas within the community that allow us to scale our impact and re-circulate economic support.

POLIS

Política con Impacto desde la Sociedad Civil

We created a (free!) program aimed at **training organizations to achieve legitimacy and tangible impact.**

- A virtual campus + a two-day bootcamp held annually in editions across Argentina, Colombia, and Mexico, catering to over 30 organizations per year.

WORKERTECH ARGENTINA

From the Workertech Argentina project promoted by IDB Lab we **accompany the informed dialogue between relevant actors, platforms, researchers and workers to create responsible labor ecosystems.**

- In addition, we promote technological solutions that provide benefits to people who use work platforms as a source of income.

workertechargentina.org

DELTA HUB

A CIVIC HOUSE unit

We started our solutions lab in the Paraná Delta, where we connect technology, nature and community.

- 

Collaboration opportunities between community and like-minded teams in an inspiring environment.
- 

A unique setting for territorial transformation projects.
- 

In incubation:

 - Water purification system
 - Deltapp
 - Residency Program

Our Alliances
